The Website is owned by Angelini Beauty S.p.A., with registered office in Via Melchiorre Gioia, n. 8, 20124 Milano, (MI), Italy, (hereinafter "Angelini" or "Owner"), which you can contact for any information or request regarding the use of cookies and other tracking tools on this Website by writing to dpo@angelinibeauty.com. For more information about the processing of personal data, please consult the [Privacy Policy](#) of the Website.

1. What are cookies?

Cookies are small text files that websites visited by the user send and record on their computer or mobile device, to be then retransmitted to the same websites on the next visit. Thanks to cookies, the website remembers the user's actions and preferences (such as, for example, login data, chosen language, font size, other display settings, etc.) so they do not have to be indicated again when the user returns to visit said website or browse between pages of the same website. Cookies are therefore used to perform computer authentication, session monitoring, and storage of information regarding the activities of users who access a website. They may also contain a unique identification code that makes it possible to keep track of the user's navigation within the website itself for statistical or advertising purposes. While browsing a website, users may also receive on their computer or mobile device cookies from websites or web servers other than the one they are visiting ("third-party cookies"). Some operations could not be performed without the use of cookies, which in some cases are therefore technically necessary for the website to function.

There are various types of cookies, depending on their characteristics and functions, and they can remain on a user's computer or mobile device for different periods of time: session cookies, which are automatically deleted when the browser is closed; persistent cookies, which remain on the user's device until a pre-established expiration date.

According to current legislation, the user's express consent is not always required for cookie use. In particular, consent is not required for "technical cookies", which are used for the sole purpose of transmitting a communication over an electronic communications network or are strictly necessary to provide a service explicitly requested by the user. In other words, these cookies are essential for the functioning of the website or necessary for performing activities requested by the user.

On the other hand, prior consent of the user is required for "profiling cookies", which are used to create profiles regarding the user and to send advertising messages in line with the preferences expressed by the user while browsing the Internet.

2. The cookies used on the website.

The Website uses cookies to make the website function and to provide services within it, to understand and improve the user's browsing experience, and to send you advertising in line with your preferences expressed while browsing the Internet.

In particular, the Website uses:

- *technical cookies*, i.e., browsing or session cookies, which are strictly necessary to allow the website to function or to let you use the contents and services you requested (condition of lawfulness: execution of a contract or pre-contractual measures, i.e., browsing the website and the use of its contents and services);
- *analytical cookies similar to technical cookies*, including ones from third parties, for the production of statistics in aggregate form (condition of lawfulness: derogation from the collection of consent provided for by legislation on electronic communications and, in particular, by art. 122 of the Privacy Law as clarified by the "[Guidelines for cookies and other tracking tools - 10 June 2021](#)" of the Guarantor for the protection of personal data);
- *analytical cookies*, including those of third parties, which make it possible to understand how the Website is being used by you and other users (condition of lawfulness: your prior consent. Granting your consent is purely optional);
- *profiling cookies*, also from third parties, i.e., cookies aimed at creating profiles related to the user and used to send you advertising messages in line with your preferences expressed while browsing the Internet (condition of lawfulness: your prior consent. Granting your consent is purely optional).

Third-party cookies, i.e., cookies from websites or web servers other than Angelini's, are also used for the purposes of said third parties.

3. Categories of recipients of personal data

For the purposes indicated above (in the table referred to in paragraph 2), your personal data may be disclosed to:

- persons authorized by the Owner to carry out personal data processing operations (employees or collaborators of the Owner);
- the Data Processors appointed by the Owner (IT, technological and telematic service providers);
- other independent data controllers (listed in the table referred to in paragraph 2).

Your data may also be transmitted in compliance with the law to tax authorities, police forces, and judicial and administrative authorities, for the detection and prosecution of crimes, the prevention and protection from threats to public security, to allow the Owner to ascertain, exercise, or defend a right in court, as well as for other reasons related to the protection of the rights and freedoms of others.

4. How to enable or disable cookies

Cookie Center

You can choose what cookie categories to authorize by selecting them through our Cookie Center (clicking on **Review your cookie choices**).

We inform you that:

- since "technical cookies" are strictly necessary for the proper functioning of the Website or to be able to use the contents and services requested, it is not possible to disable this type of cookie, as this would compromise the correct functioning of the Website or the use of its contents and services. If you do not wish to install this category of cookies on your device, you are invited not to use the Website (the installation of technical cookies is a necessary requirement for the Website to function properly);
- since "analytical cookies similar to technical cookies" are used for the sole purpose of producing statistics in aggregate form to allow the Owner to understand and improve the user's browsing experience, the same rules apply to them as the rules for technical cookies. If you do not wish to install this category of cookies on your device, you are invited not to use the Website;
- denying consent for the installation and use of "analytical cookies" (including cookies of any third parties) or "profiling cookies" (including ones of any third parties) will not affect the functioning of the Website. Granting your consent is purely optional.

The choices you make regarding the website's cookies will in turn be recorded in a specific technical cookie with the characteristics shown in the appropriate cookie table. However, this cookie may not function

properly in some circumstances: in such cases, we advise you to delete unwanted cookies and to prohibit their use also through the functions of your browser.

Your cookie preferences will be reset if you use different devices or browsers to access the Website or if you delete cookies from your device.

- obtain restriction of the processing of your personal data, i.e., that the Owner retains such data without being able to use them (the right to restrict processing);

- withdraw your consent at any time, if previously given for the processing of your personal data, without affecting the lawfulness of the processing based on the consent given before its withdrawal (the right to withdraw consent).

- object at any time, for reasons connected with your particular situation, to the processing of your personal data, in particular, for marketing purposes, including profiling.
